

# ANKUR MISHRA

PHONE | (+91) 7800812399  
EMAIL | mishraankur595@gmail.com  
LOCATION | Vellore, INDIA  
EXPERIENCE | Fresher

## Key Skills

- Java
- React.Js
- Node.Js
- Express
- Python
- C
- MySQL
- Database Management Systems DBMS
- Oracle DBMS
- MongoDB
- Cloud Computing
- Machine Learning
- HTML
- CSS
- Bootstrap
- Spring Boot
- Struts Hibernate
- GIT
- Github
- DevOps
- Software Testing
- AWS

## Profile Summary

A passionate and self-motivated college student with a strong foundation in programming and problem-solving. Proficient in Java, Python, and JavaScript, with hands-on experience in frameworks like Spring, React, and Angular. Successfully developed academic projects, including a Charity Management System and a Sorting Visualizer, showcasing technical skills and creativity. Eager to apply knowledge to real-world challenges, embrace new technologies, and contribute to innovative software solutions

## Education

- MCA - Computers**  
2026  
Vellore Institute of Technology  
Grade - 8/10
- BCA - Computers**  
2024  
Dr Ram Manohar Lohia Avadh University, Faizabad  
Grade - 78.2%
- 12th**  
2019  
Uttar Pradesh , Hindi  
Grade - 78.4%
- 10th**  
2017  
Uttar Pradesh , Hindi  
Grade - 84.0%

- Docker
- Kubernetes

## Certification

- FULL STACK JAVA DEVELOPER
- FULL STACK WEB DEVELOPMENT WITH MERN
- Mastering Data Structures & Algorithms Using C And C++
- React - The Complete Guide (Including Hooks, React Router, Redux)

## Languages

- Hindi
- English

## Hobbies

- Sports
- Movies
- Reading

## Projects

### Sorting Visualializer

3 Days

Developed a real-time Sorting Visualizer in C using the OpenGL library to demonstrate various sorting algorithms (e.g.. Bubble Sort, Selection Sort, Insertion Sort, Merge Sort, Quick Sort). Enabled users to visualize and compare the sorting process with adjustable data sizes

### WeatherWeb Using React

1 Days

Developed a responsive weather dashboard using React, integrated with the OpenWeather API to display real-time weather updates, including temperature, humidity, wind speed, and forecasts for any location. The application features a dynamic search functionality with autocomplete for improved usability and an intuitive user interface enhanced with smooth animations using CSS. Ensured cross-browser compatibility and optimized performance for seamless access across devices.

### Charity Management System

3 Days

Developed a web-based platform for managing donations, campaigns, and user details with distinct admin, charity, and donor portals. Utilized JSP, Servlets, and MySQL to streamline operations, including campaign creation, donation tracking, and user management. Enhanced efficiency and transparency in charity workflows.
