Professional Summary

Software Engineer with hands-on experience in Java, Spring Boot, Microservices, REST APIs, and SQL, with industry experience at Nokia in network automation and software validation. Experienced in building secure, scalable backend systems using Spring Security, JWT, RabbitMQ, MongoDB, and React.js.

Technical Skills

Languages: Java, Python, C, JavaScript, SQL

Backend Technologies: Spring Boot, Spring Security, Spring Cloud, Hibernate/JPA, Flask, Node.js, Express.js, RESTful APIs, Microservices

Frontend Technologies: React.js, JSP, Material UI (MUI), HTML5, CSS3, Bootstrap, Tailwind CSS

Databases: MySQL, MongoDB, PostgreSQL

Machine Learning: Supervised Learning, Regression, Classification, Clustering, OpenCV, Scikit-Learn, Pandas, NumPy

Cloud & Deployment: Docker, AWS, Render, Netlify

Microservices & Integration: API Gateway, Eureka Service Discovery, OpenFeign, RabbitMQ, JWT Authentication

Tools & APIs: Git, GitHub, Maven, Postman, REST APIs, OpenAI API, Gemini API

Experience

Intern - Nokia

Aug 2025 – May 2026

Network Automation

- Delivered 42 functional use cases for QinQ forwarding model validation within the iHub environment.
- Resolved 10 ATC functional requests related to automation, software validation, and network testing.
- Identified, raised, and tracked 11 software defects during functional and validation testing cycles.
- Performed development, test execution, debugging, and traffic validation activities for telecom network devices.
- Applied networking concepts and automation frameworks to validate telecom device functionality and forwarding behavior.

Projects

Food Waste Connect - Food Donation And Redistribution Platform (Microservices Architecture)

- Designed and developed a full-stack food donation platform connecting food donors with NGOs and shelters using React.js, Spring Boot, and Microservices Architecture.
- Built secure REST APIs using Java 21, Spring Boot, Spring Security, Spring Data MongoDB, and JWT with Spring Cloud Gateway and Eureka Service Discovery.
- Implemented role-based authorization, donation management, nearby donation discovery, organization management, and donation matching to streamline food redistribution.
- Implemented event-driven notifications using RabbitMQ and integrated JWT access/refresh token handling with Axios interceptors in the React.js frontend.
- Technologies Used: Java 21, Spring Boot, Spring Security, Spring Cloud Gateway, Eureka, RabbitMQ, JWT, React.js, MongoDB, Axios, Maven, Git, GitHub, Postman.
- **GitHub:** Food Waste Connect

RentNService - AI Powered Service Marketplace And Rental Platform (Microservices Architecture)

- Designed and developed a scalable full-stack platform connecting customers with service providers and rental owners using Spring Boot, React.js, and Microservices Architecture.
- Built RESTful APIs using Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL with API Gateway, Eureka Service Discovery, and OpenFeign for inter-service communication.
- Integrated JWT Authentication and Role-Based Access Control (RBAC) to secure user and admin operations across microservices.
- Developed AI-powered recommendation and chatbot features using OpenAI API to provide intelligent service suggestions and customer assistance.
- Technologies Used: Java21, Spring Boot, Spring Security, Spring Cloud Gateway, Eureka, OpenFeign, RabbitMQ, JWT, React.js, Material UI, MySQL, Cloudinary, Docker, OpenAI API, Git, GitHub, Postman.
- **GitHub:** RestNService

Scholarship Portal - Full Stack Web Application

- Developed a full-stack scholarship management platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented authentication, scholarship application management, profile management, and admin functionalities through RESTful APIs.
- Enabled students to browse, apply, and track scholarships while providing administrators with centralized scholarship management capabilities.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Bootstrap, REST APIs, Git, GitHub, Postman.
- **GitHub:** ScholarshipPortal

Achievements & Certifications

Solved 225+ coding problems on LeetCode, demonstrating strong problem-solving and Data Structures & Algorithms skills.

Full Stack Java Developer - Make Career Academy, Lucknow

Full Stack Web Development with MERN - Apna College

Education

Master of Computer Applications (MCA)

Vellore Institute of Technology, Vellore Tamilnadu

2024 – 2026

CGPA: 8.95/10

Bachelor of Computer Applications (BCA)

Ranveer Rananjay PG College, Amethi Uttar Pradesh

2021 – 2024

78.05%
